**SAFETY BLITZ TARGETS INDUSTRIAL WORKPLACES**

*McGuinty Government Committed To Eliminating Workplace Injuries*

**NEWS**

The Ontario government will continue its efforts to reduce workplace injuries by cracking down on hazards involving forklifts and lifting devices at industrial workplaces in 2009.

Inspectors will focus on ensuring employers are inspecting and maintaining lifting devices in good condition, using competent trained persons to operate the equipment and ensuring that the equipment is being used in a safe work environment.

For each conviction, the court can impose a fine of up to \$500,000 against a corporation convicted under the [Occupational Health and Safety Act](#). Individuals face a fine of up to \$25,000 or imprisonment of up to 12 months, or both.
